

VIZUA COLLECTION

Get unlimited design freedom to create a washroom space with premium surface products that come in a range of options. We offer the best and highest quality surface product to our customers that's unparalleled in the market.

*Helping you make
your vision into a reality.*

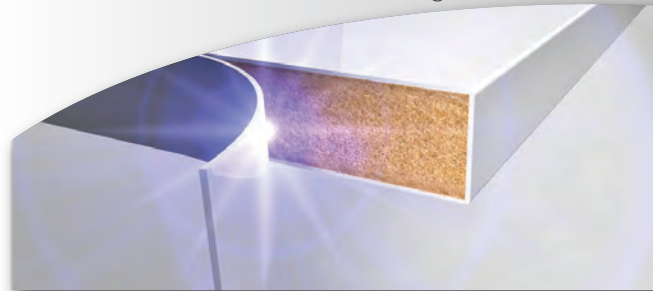

ABOUT

Vizua Collection is a complete luxury washroom solution for your commercial projects, offering two exclusive finishes – *Metal laminate* and *High Gloss/Matte laminate finish*. Designing innovative and premium quality washroom solutions is our forte. We utilized this manufacturing expertise in designing the VIZUA Collection with high-end finishes and functionality creating a luxurious and well-planned washroom design.

JOINTLESS EDGE BAND:

All panels are treated with zero-glue-line edge banding – giving the impression of a single moulded surface rather than an edged board.

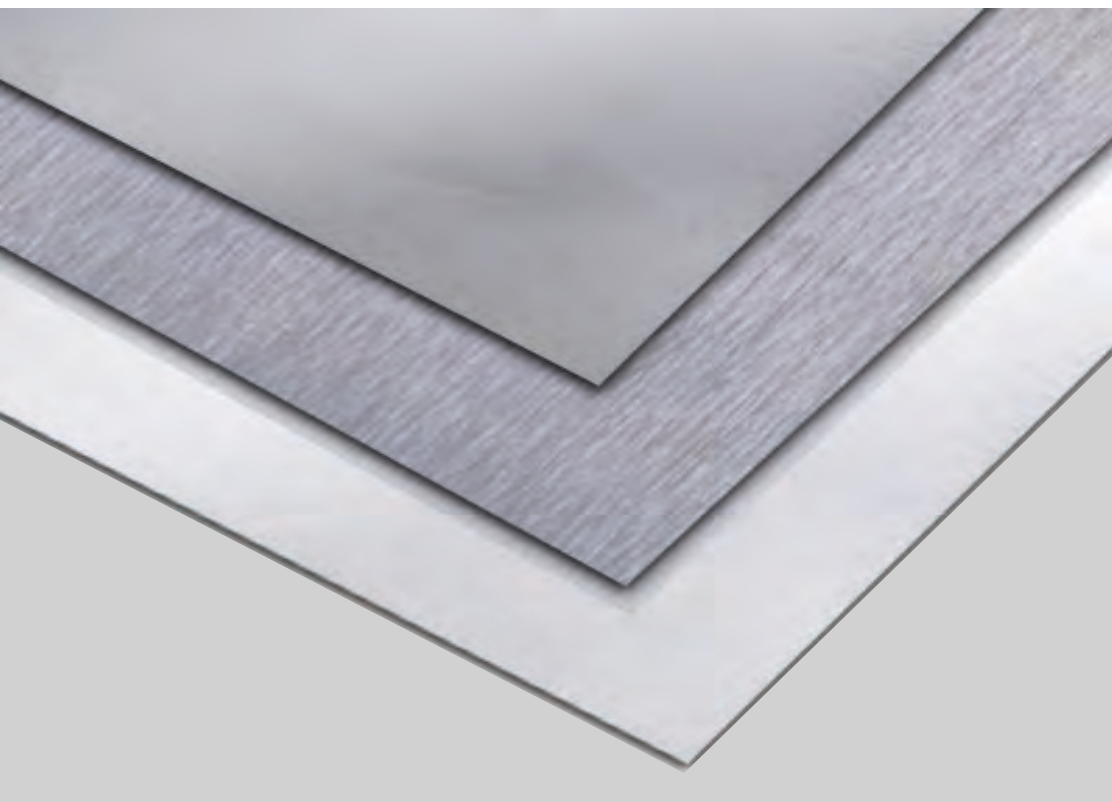

-  Color and UV stable
-  High chemical resistant
-  Scratch resistant
-  Seamless appearance
-  Easy to clean

HIGH GLOSS/MATTE LAMINATE FINISH

Our finishes colour palette consists of vibrant and exciting tones that can be matched perfectly to the edge bands. Create a bold depth effect in either high-gloss or matte finish on quality lacquered board. A clean and fresh-looking surface that will create a luxurious finish to your end product.

-  Solvent resistant
-  Scratch resistant
-  Impact resistant
-  Durable
-  Moisture resistant
-  Easy to clean
-  Quick installation

METAL LAMINATE FINISH

The metal laminate finish is another option available for the Vizua model and is a high moisture resistant finish that has a long-lasting and flawless shine. In comparison to chrome, metal laminate is more durable and lasts for years. The metal laminate finish withstands the harshness of industrial cleaners and sprays and is more resistant to corrosion and rust. Apart from having a modern look, it is highly hygienic and easy to maintain.

WASHROOM CUBICLES

CURRENT STATE OF THE ART:
LASER WELDING

For your most prestigiously exclusive washroom the VIZUA model provides elevated aesthetics, modern function and dedicated support solving any design challenge. Present a new angle in design with complimenting finishes that define your space.

HARDWARE OPTIONS

INTEGRATED PANEL SYSTEMS

The sturdy panels can be designed in high gloss/matte or metal laminates in a versatile range of colors creating a seamless wall finish. An efficient and cost-effective plumbing work fitting without any unsightly protrusions or service fittings. Site ready assembly of components reduce installation time and site interruption.

CONSTRUCTION

- Designed with heavy duty magnetic catch requiring at least 5 kilos of pull strength to take out the panels, thus preventing vandalism and unauthorized panel removal.
- Module includes floor/wall anchored ultra-strength galvanized steel sub-frame.
- Airforce lipping technique is used for matching edge band color.

KEY FEATURES

- All surfaces of fixed and access panels, top fascia / skirting and posts are impervious to water.
- Removable panels with riveted push-pull clips wherever applicable.
- Choose between variety of colors from high gloss/matte finish or in metal laminate to match tiles or toilet partitions.
- Resistant to chemical cleaning agents.
- Cost effective solution that is quick and easy to install.
