FLK WINDBREAKS

It is the only system with automatic opening. By pressing down the movable part, it rises instantly and reaches its extended height to enclose a terrace for example, offering a feeling of space, comfort and security.

SPECIFICATIONS

- Pair of posts (aluminium); 2 posts per unit (right + left).
- Anchorage plates 73 x 260 mm with 11 mm drills for fastening.
- Maximum width (per unit): 2000 mm.
- Made for tempered glass: 8 mm for the fixed part and 6 mm for the movable part.
- Delivered without glass.
- Standard finish: RAL 7016 MATT.
- Other finishes upon request.
